ÉBSZ ÉPÍTŐGÉP 2010
KIALLÍTÁS
2010. 09. 16-17-18. SÓSKUT

16–18 September 2010, Sósut, Hungary

Largest Outdoor Building Machine Exhibition in Hungary

- *Compelling names – key players*
- *Hundreds of building machines*
- *Free admission and parking*
- *Easy excess, large open space*
- *Colorful professional and family programs*
- *Machine test-drives, demos*
- *Building machine scale-models*
- *Best operator in the country competition*
- *Driving technique and skill control*

The main organizer of the **3rd ÉBSZ Building Machine Exhibition**, the Association of Building Machinery Distributors and Lessors (ÉBSZ), undertakes the heavy burden of this serious and challenging professional work in this difficult economic time, in order to provide a stable point, a professional forum with varied colorful programs to all of those, who are involved in the building machine sector.

The market of building machine rental and distribution, justifying the efforts of ÉBSZ, produced the following positive exhibition data:

Entire exhibition area:	22 acres
Number of exhibitors:	50 companies
Indoor exhibition area:	726 m²
Outdoor static exhibition area:	2520 m²
Number of test machines:	68 machines, approx. 18,000 m²

BUILDING MACHINE TEST-DRIVE: There will be a possibility to test-drive 68 different makes and type machines on the building machine category's test course – backhoe-loaders, excavators, loaders, compact loaders, dozers, and dumpers – in life-like, controlled environment. Inquirers can get detailed information on **test-drive** rules from the staff working next to the machine categories.

BEST MACHINE OPERATOR IN THE COUNTRY COMPETITION: We are looking for **the best machine operator of the country!** We await the application to the competition in five categories – compact loader, backhoe-loader, excavator, mini excavator, and telescopic loader – of all, who would like to compete in front of a large audience.

BUILDING MACHINE SHOW, DEMOS: At some of the ÉBSZ Building Machine Exhibition's categories – backhoe-loader, excavator, compact loader, loader, dumper, demolition hammer – machine manufacturers will hold demonstrations, at certain times. They will show the advantages of the given machine type, special parameters, and will give a spectacular **machine show** by testing the limits of the machines and showcasing their abilities.

BUILDING MACHINE SCALE-MODEL SHOW: At the ÉBSZ Building Machine Exhibition we will create a **mini building machine scale-model gallery**, where visitors will get to know several machine makes – Volvo, Hitachi, Terex, Sennebogen, Palfinger, Wirtgen, Hamm, Vögele, JCB... – and their

area of use. We will illustrate several thousands square meters of construction site on a few square meters, with the help of plotting board and scale-models. Everybody should visit the scale-model show, who is interested in the giants of construction. The accompanying program is free just like the main event.

VW AMAROK TEST-DRIVE: Volkswagen Utility Vehicles will present its new pick-up, the VW Amarak, at the 2010 ÉBSZ Building Machine Exhibition. At the Sósút area, next to the excavators and loaders, there will be a possibility to try out the new model also. We invite everybody to the **Driving Technique and Skill competition**, who would like to test their skills and the **new Ankomak pick-up**.

CULTURE, ENTERTAINMENT, BUSINESS: We think, we will spice up the regular tools of the machine fair regular, this year, with the colorful world of culture, so we asked **painter Zoltán Debreczeny** to help carrying out our plans. According to this, the artist's colorful, interesting, unique paintings will be presented in a tent, in front of the stage, during his exhibition.

PROFESSIONAL PRESENTATIONS: **Prominent lecturers** of the building machine industry will arrive at the event to present the profession's novelties, technical developments, during the free programs.

FAMILY PROGRAMS: The professional event will be mixed with **family programs** – a giant sandbox, playground with knight, traditional and strategy games, daycare, artisan professions, playful quiz, face painting awaits the children.

Easy approach from both ways on the M7 highway, and **admission and parking once again free** in this year too.

Main organizer of the event is ÉBSZ (Association of Building Machinery Distributors and Lessors)
